

ISHRATH RAJI

SENIOR SOFTWARE ENGINEER

Colombo, Sri Lanka
ishrathraji8@gmail.com
+94752027987

An innovative and passionate full-stack developer with over 5 years of experience in building scalable web applications using .NET, Azure and React. Skilled in end-to-end development, including analysis, design, implementation, and testing. Proficient in leveraging AI tools and technologies to solve problems efficiently and enhance productivity. A proactive team player committed to delivering clean maintainable and high-performing solutions.

PROFESSIONAL EXPERIENCE

99x - B.U.S. (Senior Software Engineer)

Oct 2023 - Present

- Designed, developed, and maintained high-performance enterprise applications for BUSkvalitet, BUSpek, and BUSTest, delivering end-to-end features across frontend, backend, database, and Azure cloud infrastructure.
- Built scalable GraphQL APIs using HotChocolate and integrated Apollo GraphQL, developing cloud-native solutions with .NET 8, Entity Framework Core, Azure Service Bus (Topics/Queues), and Blob Storage.
- Optimized application and database performance through efficient LINQ, transactions, query optimization.
- Contributed across the software development lifecycle, including architecture, development, unit testing, CI/CD, production support, and performance optimization while adhering to layered architecture, PDD practices, and engineering standards.
- Improved software quality by conducting code reviews, promoting best practices, and collaborating with cross-functional teams in an Agile Scrum environment.
- Developed AI-powered engineering tools, including an Impact Area Analyzer, and helped drive Spec-Driven Development through GitHub Copilot, Agentic AI workflows, and AI-DLC practices.
- Managed Azure DevOps CI/CD pipelines and release processes while serving as both DevOps Lead and Scrum Master, facilitating Agile ceremonies and sprint planning.

99x - Parkly (Software Engineer)

Dec 2022 - Oct 2023

- Designed and developed cloud-native parking management solutions using C#, .NET, Azure services, and RESTful APIs.
- Implemented scalable backend features while resolving frontend and backend production issues, contributing throughout the full software development lifecycle from development to deployment and production support.
- Developed an Azure OpenAI-powered domain chatbot by training AI models on project documentation, improving productivity for developers and QA teams.
- Collaborated with cross-functional teams in an Agile Scrum environment, participating in code reviews and promoting engineering best practices to improve software quality and maintainability.

99x - DevGrade (Trainee Software Engineer)

July 2021 - Oct 2023

- Designed and developed key platform features, including MCQ integration, AI-generated question creation, and a complete UI/UX modernization using Angular, Node.js, and AWS services.
- Built and maintained scalable enterprise web applications, leveraging AWS Lambda, Amazon Cognito, and other cloud technologies to improve performance, reliability, and user experience.
- Contributed across the full software development lifecycle, from feature implementation and testing to deployment, production support, and continuous product improvements in an Agile Scrum environment.
- Applied engineering best practices through code reviews, debugging, and adherence to development standards, while serving as a core organizer of Hacktitude 2023, an international undergraduate hackathon.

SKILLS

Frontend: JavaScript, TypeScript, React.js, Vue.js, Apollo Client, Kendo UI, Next.js, Tailwind, Angular	Databases: SQL Server, PostgreSQL, MongoDB, Azure SQL
Backend: ASP.NET, .NET Core, C#, MVC, Web API, GraphQL, Entity Framework, REST APIs, Microservices	Cloud Platforms & Services: Azure DevOps Pipelines, Azure App Service, Azure Key Vault, Azure Storage, Azure OpenAI
DevOps & Tools: Docker, GitHub Copilot, Postman, Swagger/OpenAPI, Jira, Confluence	AI & ML: Azure OpenAI, AI-DLC, Agentic AI, Prompt Engineering, Spec-Driven Development, MCP, OpenAI, LangChain, TensorFlow, PyTorch

EDUCATION

Bachelor of Computer Science - First Class Honours	
IIT affiliated with the University of Westminster, London	2020 - 2025
Diploma in Computer System Design - 3.97 GPA	
National Institute of Business Management (NIBM)	2019 - 2020
G.C.E Advanced Level (Physical Science Stream: 3 Bs)	
S.Thomas' College, Mount Lavinia	Aug 2019

OTHER AWARDS

Excellence Award for Continuous Evolution	
Excellence Awards 2026	2025
Most Extraordinary Intern of the Year	
Excellence Awards 2024	2023
Best Innovative Lead of the Year	
Excellence Awards 2023	2022

CERTIFICATIONS

Azure Fundamentals (AZ-900)	
Microsoft	Dec 2022
Azure AI Fundamentals (AI-900)	
Microsoft	Feb 2023
Apollo GraphQL Developer - Associate	
Apollo GraphQL	Jun 2024
Azure Developer Associate (AZ-204)	
Microsoft	Mar 2026
